### LIVESTOCK EXHIBIT

Extraordinary Display for Kentucky State Fair.

### OTHER SHOWS OUTCLASSSED

Entries in Trotting and Pacing Races Assure Events of Unusual Attractiveness.

Popular Night Horse Show Will Again Prove One of the Leading Features.

From the live stock exhibit standpoint, the Kentucky State Fair of 1910, which is to be held on September 12-17 inclusive, at Louisville, will surpass any similar exhibition in America. The Kentucky State Fair has already won the distinction of surpassing all other state exhibitions combined in the matter of light horses. Its collective live stock display in previous years has ranked with the best of other state fairs and the entries for the approaching exhibition indicate that previous records are to be far exceeded.

Exhibitors at this state fair are peculiarly fortunate in having the advantage of the largest and finest display room in America for their thoroughbred stock. The beautiful pavilion where, day by day, are given the exhibitions of bloodstock and at night the brilliant horse show and hippodrome performances, is declared to be the best and most capacious building ever erected for such purposes. All rings of horses and cattle, mules and jacks, and dogs, will be shown in the live stock pavilion. Areas designed especially for the exhibit of swine and sheep have been erected near the horse show for these animals.

Directly associated with the live stock display are the races. This year the card will be better than ever. The half-mile track has already been put in splendid condition. Three trotting and pacing stakes are featured for each day. The entries closed on June

Duchams, J. Wal. Crawford, Millwood, superintendent; Red Polls and dairy cattle, Edgar Vaughn, Shelbyville, superintendent; swine, H. L. Belchert, Elizabethtown, superintendent; sheep and goats, J. M. Driskell, Eagle Station, superintendent; poultry and pigeons, W. B. Buford, Nicholasville, superintendent; E. S. Rorricky, Louisville, assistant superintendent in charge of pigeons; colts, dogs, W. B. Middleton, Shelbyville, superintendent; vegetables and melons, Charles Scholtz, Jr., Louisville, superintendent; field seed and grain, H. C. Lovelace, Boston, superintendent; Frank Padon, Joy, assistant superintendent; tobacco, F. P. Sebree, Carrollton, superintendent; E. S. Rees, Louisville, associate superintendent; horticulture, W. W. Hillenmeyer, Lexington, superintendent; J. H. Hammons, Jackson, assistant superintendent; plants and flowers, C. L. Branson, Paducah, superintendent; woman's work and table luxuries, Miss Evelyn Porter, Louisville, superintendent; Misses Eva N. McGrew, Bayon, and Annie Rutherford, Louisville, assistant superintendents; farm implements and machinery, G. P. Rogers, Smithland, superintendent; forestry and minerals, Robert Blackburn, Stanton, superintendent; livestock judging contest, Prof. J. J. Hooper, Lexington, superintendent; speed rings, C. H. Van Meter, Lebanon, superintendent.

### GREAT TOBACCO DISPLAY.

State Fair Exhibit Promises to Surpass All Previous Efforts.

A tobacco exhibit surpassing anything of the kind ever seen in America is promised for the Kentucky State Fair of 1910 which will be held in Louisville the week of September 12. Wm. Addams, of Cynthiana, will be the member in charge of the exhibit. F. P. Sebree, of Carrollton, is superintendent, with an associate in E. S. Rees, of Louisville. The latter has been actively engaged for several weeks in the collection of the exhibit, and an especially interesting display is promised from the dark tobacco district. Present indications point to an average Kentucky crop, and advice received from those in charge of the work indicate that the individual samples put on exhibition will be of unusual worth and the volume of exhibits will be the greatest in fair history.

A Close Finish on the Trotting Track, at the Kentucky State Fair.

1 and exceptionally fine class is assured. The prizes for these races aggregate some \$200. There will be six purse races, with the premiums amounting to \$100. In addition, four gentlemen's road races are scheduled, two of them for amateur drivers, and one running race for each day. Entries in the purse races will close the last of the week before the fair.

While the light horse show will appeal particularly to those interested in live stock, yet no feature of the fair is more generally popular as this splendid display of equine aristocracy. The horse show will be given in the arena of the live stock pavilion, which has a seating capacity for thousands of spectators. The pavilion will be brilliantly illuminated, and the classes arranged are on a par with the foremost entries in the fall and winter horse shows.

State Fair Managers Practically Same as Last Year.

With comparatively few changes, the personnel of the active management of the Kentucky State Fair for 1910 will be the same as last year. J. W. Newman of Versailles, who has so successfully guided the fair during the past few years, is in charge again as secretary. While the state failed to appropriate this year money greatly needed for additional buildings, yet it is believed there will be no genuine embarrassment on that account to the success of the approaching fair, and everything points to the largest and best state fair ever held south of the Ohio river. The following members of the State Board of Agriculture have been assigned to the departments commensurate for this year: M. C. Rankin, chairman, Frankfort, poultry, plants and flowers, livestock judging contests; M. A. Sewell, Lexington, dairy cattle, dogs; G. N. McGrew, Bayon, woman's work, farm implements and machinery; J. L. Dent, Letchfield, beef cattle; Guthrie M. Wilson, Bardonia, horses, mules, jack stock, speed contests; L. L. Dorsey, Anchorage, sheep and goats, vegetables and cereals; H. M. Evans, Glen, swine; William Adams, Cynthiana, field seed and grain; John W. Harrodsburg, superintendent; Shorthorns, Herefords and Aberdeens, Angus, W. R. Newman, Jr., Glendale, superintendent; Polled

In the Burley types exhibits will be made of the crops of both 1909 and 1910. Red Leaf, Bright Leaf, Cigarette Wrapper and Bright Trash types will be shown in each year's class, with premiums aggregating \$25 being put up in each instance. Similar premiums are offered for the dark type exhibits, entries being confined to the crop of 1910. The following types are listed for prizes: Austrian Leaf, Black Wrapper, Long or African Leaf, French Leaf, Italian Leaf, Green River Leaf and Stemming Leaf. In addition to the prizes mentioned, valuable sweepstake premiums are offered in all three classes.

The official sanction of Kentucky to the tobacco exhibit is illustrated in the donation of \$100 by Commissioner of Agriculture M. C. Rankin. This money is distributed through premiums. Every grower in Kentucky is invited to compete for one or more of the premiums, and each will be supplied with whatever information is desired upon communication with either the superintendent in charge or the secretary of the State Fair.

### THE GREAT LIVE STOCK PARADE.

No single event of the Kentucky State Fair, Sept. 12-17, will attract more attention than the great live stock parade. This will take place at 2 p. m., Friday, Sept. 16, and will be made up of first-prize winners in the various classes during the week of the fair. The judging is then over and the champion, first and second ribbons tied, and the admiring public has an opportunity of witnessing the parade of the champions in every class. This show takes place in the immense live stock pavilion, which affords ample opportunity for 10,000 people to view the magnificent sight.

### Chance For High School Girl.

The high school girl of Kentucky is to have her inning at the State Fair held in Louisville, September 12-17. The fair management has decided to learn just what progress has been made in the domestic arts and sciences by the school girls, and it is probable there will not be a more interesting exhibit at this year's big show than the examples of handwork of Kentucky girls. Liberal prizes have been offered for everything from a pink ribbon and fancy apron to the best dozen button holes. The girl who can make the best muffins and doughnuts and make the best lemon pie will also be rewarded for her skill and industry.

For catalogue, entry blanks or any other information regarding the Kentucky State Fair, address J. W. Newman, secretary, 320 Paul Jones Building, Louisville, Ky.

### HOW SHE KEEPS BEAUTIFUL.

The Mystery Solved.

Take the flowers that bloom in the spring the young girl just budding into womanhood is an inspiring sight and she is usually beautiful if she is perfectly healthy. She stays beautiful just so long as her health and constitution remain good. Let her be nervous, have backache, sleepless nights, and how soon does it take for wrinkles, crow's feet and dark circles to appear in the face? Her cheeks were rosy until she began to suffer from woman's weaknesses and the constantly recurring pains and drains brought her quickly from the beautiful age to the premature middle age. It was not meant for women to suffer so—it is due to our unnatural, but civilized methods of living, and to the fact that so many neglect those small ills which soon lead up to larger ones. Nothing so drags a woman down as these constantly recurring periods when she suffers more and more from a chronic condition that can be easily cured. No woman should take an alcoholic compound for that will disturb digestion, and the food is quickly compacted and becomes hard, tough in contact with alcohol, rendering the food indigestible. She must go to Nature for a cure. The native Indians of early times were far from wrong when they called a marvellously effective medicinal plant "Squaw root"—what the physicians of our day called Canthophyllum or Blue Cohosh. This and Black Cohosh, Golden Seal, Lady's Slipper, and Unicorn root, are important ingredients of a wonderfully successful remedy in modern times, namely, Dr. Pierce's Favorite Prescription. Having made a specialty of the diseases of women in the early sixties Dr. Pierce soon found that a glyceric extract of these roots with Hydrastis or Golden Seal and Lady's Slipper root, combined in just the right proportions, made the very best tonic and cure for the distressing complaints of women. Where women suffered from backache, weakness, nervousness and lack of sleep, it was usually due to functional trouble, therefore this prescription directed at the cause cured 98 per cent. of such cases. That is why Dr. Pierce soon put it up in a form easily to be procured all over the United States.

Aching from head to foot—that is the condition that afflicts some women at stated periods—backache, dizziness, and pains almost unbearable. An honest and a safe remedy which no woman can afford to lose the opportunity of trying for the cure of these distressing complaints which weaken a woman's vitality is Dr. Pierce's Favorite Prescription. Dr. Pierce not only assures you that his "Favorite Prescription" is honestly made, but he lets you know just what it contains.

The best of medical authorities recommend the best of all remedies for the above ailments. Thus E. E. Kingwood, M. D., Professor of Materia Medica, Bennett Medical College, Chicago, says of Golden Seal: "It is an important remedy in disorders of the womb. In all catarrhal conditions." Of Lady's Slipper root he says: "Exercises special influence upon nervous conditions depending upon disorders of the female organs; relieves pain, etc." Prof. John King in the AMERICAN DISPENSARY, says of Black Cohosh root: "This is a very active, powerful and useful remedy." "It is a very important part in diseases of women; in the painful conditions incident to womanhood. In dysmenorrhea it is surpassed by no other drug, being of greatest utility in irritative and congestive conditions." "Its action is slow, but its effects are permanent." "For headache, whether congestive or from tension, or dysmenorrhea it is promptly curative."

Dr. John F. Fyfe, of Sengstack, Conn., Editor of the Department of Therapeutics in THE ELECTRIC REVIEW says of Unicorn root (Helleborus Dylon), one of the chief ingredients of Dr. Pierce's Favorite Prescription: "A remedy which invariably acts as a uterine (womb) invigorator and always favors a condition which makes for normal activity of the entire reproductive system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner of medicine."

In Holonia we have a medication which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent."

### NOXAL WONDER

No. 24,502, sire Perfect Wonder, dam QUEEN QUALITY,

a fine individual, from a perfect strain of prize winners, is now in service, at \$1.00, cash in hand only. The patronage of the public is solicited. J. E. COOMBS.

### 60 YEARS' EXPERIENCE

A hand-drawn sketch of a person's head and shoulders, looking to the side.

The thing that worries some about heaven is that there will be no opportunities for distinction by means of millinery.

## Our Name

has been before the public for 30 years, most of the time right on the spot where we are now located.

## Our Aim

constantly has been to sell the best goods in our lines, at the most reasonable prices. Our services are of the highest grade, our wares the best, and our equipment compares with the best of the larger cities. We endeavor constantly to increase our usefulness.

## Our Claim

On your patronage is based on a service the duration of an ordinary life time, and a square deal assured every one. The accumulated experience and knowledge of this third of a century are at your command.

## The Stark Year Book for 1910

is ready to mail. It will be sent to any person interested in fruit-growing on receipt of 7 cents to cover postage. The Stark Year Book for 1910 represents an entirely new idea in nurserymen's literature—it is a work of art as well as a catalogue of Stark Nursery products. Within its covers are 32 full-page illustrations of Stark trees, representing 175 varieties, done in four colors, and exactly reproducing nature. 84 pages are devoted to descriptions, prices, and records. Stark Delicious, the apple that has revolutionized orchard planting and established a new standard of apple values (selling at \$10.00 per bushel box this year); Stark King David, another apple of wondrous quality and merit; Stark King Philip, a hardy black grape of California grape quality, and dozens of the very best things in the horticultural world are fully described, illustrated, and priced. To any one planting one tree or many, of fruits or ornamentals, this book is of inestimable value—a horticultural text-book—a guide to proper selection. Stark trees have stood the supreme test of actual planting for 85 years—they are the yard-stick by which all other nursery products are measured—they are the first choice of this country's most successful orchardists. The success of the orchard is dependent on the kind and quality of tree planted. Stark varieties are the best of the best. Our record of 85 years of successful selling is a positive guarantee of tree quality.

Before you decide to buy, send 7 cents for the Stark Year Book—do it today before the edition is exhausted.
